Full Stack Developer with 5+ years of experience creating scalable web applications. I specialize in the JavaScript ecosystem (React, Node.js, TypeScript), with a passion for crafting intuitive user experiences and clean code. I love collaborating in agile environments and constantly learning new technologies to build better software.

Skills

I already know

React.js 4/5 TypeScript 4/5 Node.js 3/5 SASS 4/5 Chakra UI 4/5
Storybook 4/5 Mapbox 3/5 Tailwind CSS 3/5 Prettier 5/5 ESLint 4/5
PostgreSQL 3/5 Next.js 3/5 Firebase 1/5 Cypress 1/5

I want to learn

Vue.js Astro Firebase

I speak

Spanish native English C1

Work experience

Full-stack developer

September 2020 - now

Qubika

Developing high-performance user interfaces with a focus on great UI/UX is my core strength. Whether building new features or refactoring legacy systems, I strive to make code cleaner, more efficient, and easier to maintain.

Fostering a collaborative environment is essential to my process. I actively support the team through code reviews and mentoring, always looking for opportunities to learn new patterns and technologies to solve problems more effectively.

Key Contributions:

I hereby give consent for my personal data included in my application to be processed for the purposes of the recruitment process.

- Led the frontend development of new applications from scratch, taking ownership of architecture and best practices.
- Optimized application performance to ensure fast load times and smooth interactions.
- Modernized legacy codebases, significantly improving maintainability.
- Collaborated in agile teams to deliver high-quality software.

Technologies: React.js, Next.js, TypeScript, Chakra UI, Tailwind CSS, SASS, Firebase

Education

Software Engineering
